Java, Spring Boot, Angular
- Database Management :
MSSQL, PostgreSQL
- Version Control (Git/GitLab)
- Cloud Computing & DevOps :
Experience with platforms like
Azure
- Testing and Debugging

SOFT SKILLS

- Problem-Solving
- Communication
- Continuous Learning
- Attention to Detail

About Me

I am a passionate software developer with hands-on experience in building full-stack web applications using modern technologies like Spring Boot, Angular, and Java.

I love solving complex problems and creating beautiful, intuitive user experiences. My focus is on writing clean, maintainable code that scales well and delivers real value to users.

When I'm not coding, you'll find me exploring new technologies, contributing to open-source projects, or learning about system architecture and design patterns.

WORK EXPERIENCE

Aug 2024 - Present

Myanmar Information Technology Pte Ltd

Full Stack Developer

- Develop secure, scalable backend services with Java and Spring Boot.
- Integrate REST APIs with Angular frontends.
- Build core banking and mobile wallet features with clean, maintainable code.

PROJECT EXPERIENCE

- **Job Portal Website**
Job listings, resume uploads, application tracking, and dashboards.
- **Core Banking System**
Account management, fund transfers, transaction history, and authentication.
- **Mobile Wallet Backend APIs**
Wallet creation, balance inquiry, fund transfers, and OTP authentication.
- **Core Banking API Services**
Mobile banking, digital wallets, P2P transfers, merchant transactions, and role-based access control.
