- Communication
- Continuous Learning
- Attention to Detail

About Me

Passionate software developer experienced in building full-stack applications with Java, Spring Boot, and Angular. I enjoy solving complex problems, writing clean and scalable code, and continuously exploring new technologies, architecture, and design patterns.

WORK EXPERIENCE

Aug 2024 - Present

Myanmar Information Technology Pte Ltd

Full Stack Developer

- Develop secure, scalable backend services with Java and Spring Boot.
- Integrate REST APIs with Angular frontends.
- Build core banking and mobile wallet features with clean, maintainable code.

PROJECT EXPERIENCE

- **Core Banking System**

Account management, fund transfers, transaction history, and authentication.

- **Core Banking API Services**

Mobile banking, digital wallets, P2P transfers, merchant transactions, and role-based access control.

- **Mobile Wallet Backend APIs**

Wallet creation, balance inquiry, fund transfers, and OTP authentication.

- **Wallet Admin Portal**

Full-stack development of admin portal features, including user management, wallet management, transaction monitoring, and system administration.
